	projector especially are needed to be provided to the student.		
	Provide notes in high contrast (black/white or dark colored print)	Visual	He has difficulty seeing certain colors (light colors and colors such as yellow, pink and green).
	Provide electronic notes to help alleviate eye fatigue	Visual	Very effective
	Wear hat and/or protective sun gear for outside.	Visual and Physical	
	Enlarged Standardized Achievement testing materials. Font Size on standardized test needs to be 22 or higher.	Visual	
	Transcription of Standardized Achievement test. Student does not have the visual ability to complete scantrons.	Visual	
	Enlarged school tests and homework if deemed necessary to alleviate eye fatigue.	Visual	

Subject	Accommodation	Comment	Effectiveness
	Again, student cannot visually read 12point sized prints most materials are.		
	Provide the option of taking in class tests on a computer/laptop to relieve stress on the eyes as he can enlarge the text as needed.	Visual	Currently, his in-class tests do not need to be inputted into a scantron sheet. Only standardized tests are transcribed. This may change depending on each individual professor's requirements.
	Allow extra time on lengthy assignments or tests if deemed necessary to alleviate eye fatigue.	Visual	<p>He feels confident and can perform tasks that are of a short duration.</p> <p>Eye fatigue are of a concern if he is not provided with the appropriate tools that meet his visual impairment needs while performing lengthy tasks.</p> <p>Breaks during the testing would allow him to rest his eyes, and the extra time would also allow him to have the time he needs to accurately reflect his abilities.</p>
	Allow frequent breaks during tests to relieve stress on eyes.		

Subject	Accommodation	Comment	Effectiveness
	Allow student to answer directly on worksheet or test. No Scantrons as he is visually unable to see or fill them out as indicated above.
